Security-Net™ partners at 2016 annual meeting.

PARTNER PROFILE: A3 COMMUNICATIONS, INC.

It started with a passion for electronics. In 1990, F. Joseph Thomas, a graduate of the University of South Carolina's Master electrical engineering program, and our Founder and Chairman, established A3 Communications, Inc., initially a local provider of software development.

Enjoying quick success, he expanded the firm into data networking and security, with an eye towards the inevitable consolidation of voice and data. With Joe's foresight and early adoption of VoIP, he developed a simple, but proven, winning formula: listen to actual technology users to identify their needs, then develop solutions that fill them now and scale for the future.

Establishing itself as a systems integrator, A3 grew to provide business phone systems, structured cabling, physical security, and electrical services, but never strayed from its original mission to equip all customers with easily managed, competitively priced solutions.

Today, under CEO and President Brian Thomas' leadership, we serve more than 2,500 clients from our Columbia, SC, headquarters and seven additional locations in Greenville, SC, Charleston, SC, Atlanta, GA, Milledgeville, GA, Charlotte, NC, Raleigh, NC and Nashville, TN. Through selecting products and partnerships on quality, reliability and technological capability, we are dedicated to serving as a "one source, one stop" solution.

We are proud to employ multiple full-time RCDDs (Registered Communications Distribution Designers).

"A3 is built and sustained by our people. These devoted individuals commit themselves to our collective success by sharing talent, ideas, knowledge and years of experience. Without the combination of these unique, moving parts, we would be unable to accomplish even a degree of the success we've enjoyed. In an evolving field like IT, systems integration requires a diverse skillset that challenges even the most seasoned staff. I am proud to be a part of this team and thankful for their dedication to developing genuine client relationships while delivering superior service to exceed their expectations." -Brian Thomas, CEO and President
