Security-Net™ partners at 2016 annual meeting.

PARTNER PROFILE: INTERTECH CI

Intertech Ci's stands for Comprehensive Integration of technology and software applications. The "i" in their name and in their logo represents a commitment to integration, innovation, and independence. Intertech Ci's reputation has been built on providing best in class solutions for its customers.

Founded in 2000 as Intertech Security, the company's mission was to provide best-in-class security solutions for medium to large companies. The objective was to meet customers' security needs by focusing on providing solutions versus selling products. By 2004, the company grew to more than 40 employees with offices in Pittsburgh, Pennsylvania, and Frederick, Maryland.

In 2005, the company became positioned for greater growth and stability by merging with two other security providers. Simultaneous to the merger, three highly experienced managers joined the company to enhance the executive team. The new management team focused their specific talents and experience to grow the company organically and via acquisition. While growing the quantity and variety of projects in different markets, there was also an emphasis on expanding maintenance and monitoring capabilities.

A key acquisition in 2014 brought expanded expertise to the company in the areas of fire systems, audiovisual systems, networking and communications. The acquisition gave Intertech Security a significant presence in the K-12 education market as well as a stronger relationship with architects and engineers. The company's increasing specialization in integrated solutions spawned a name change in 2015. The new name became Intertech Ci.

Intertech Ci offers integration expertise. Their in-depth knowledge of networking and infrastructure enables them to design comprehensive systems that connect, protect, and communicate; allowing customers to be more secure, efficient, and productive.

As an innovative integrator of technology solutions, Intertech Ci embraces change and solves problems with scalable solutions that use advanced technologies to increase customer capabilities that maximize the client's investment.

As an independent systems integrator, Intertech Ci partners with industry-leading systems manufacturers to provide specific solutions that meet each customer's current and future needs.

Intertech Ci currently has over 175 employees, with corporate headquarters located in Pittsburgh, Penn. The company also has regional offices in Maryland, Ohio, Texas and Florida.
